

Savant Automation, Inc. is a full service AGV/AGC system provider. We engineer and manufacture the products in Grand Rapids, MI. 24/7 customer support is provided for all customers.

Savant's advanced technology is well proven in numerous markets including automotive, warehousing, paper, plastics, hospital, pharmaceutical, consumer goods, etc. Our **'tape-free'/'target-free'** virtual path navigation eliminates path maintenance and downtime.

What differentiates Savant from others (and accounts for our 60+ year history), is that we are the only supplier that –

- 1) owns/develops its technology, 2) manufactures/installs its products, 3) is US-based and, 4) whose sole business is AGV/AGC systems.

We need to, and will be your best AGV/AGC supplier-partner because, **'Our Business Depends On Your Business'**

Multi-Use 'Tape-Free' AGCs

Powered Roller-Chain-Belt Decks

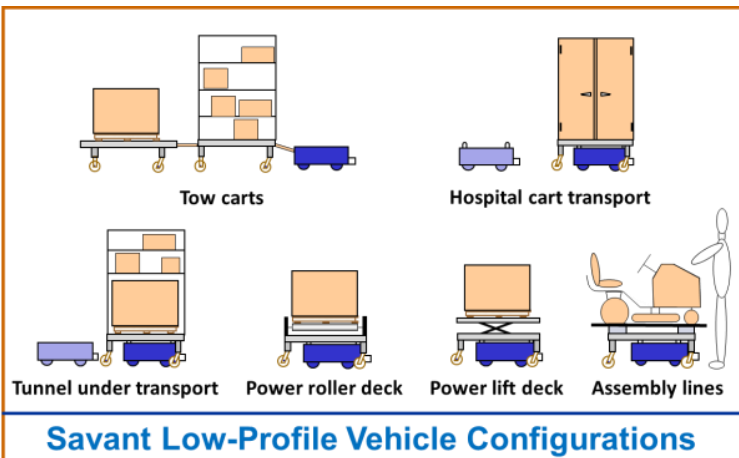

Cart Transport

Rack/Platform Transport

Powered Lift Decks

Assembly Line

Hospital Carts

Towing AGVs Light and High Capacity

All Vehicles include Standard 'Tape & Target-free' Savant Virtual Path Navigation

'Virtual Path' navigation (CAD map tracking) is not subject to dust, humidity, floor cleaning, heat, light, vibration, target reflectivity issues, or sabotage common with laser, camera or tape guided AGVs. As such, there is zero daily path or navigation related maintenance required.

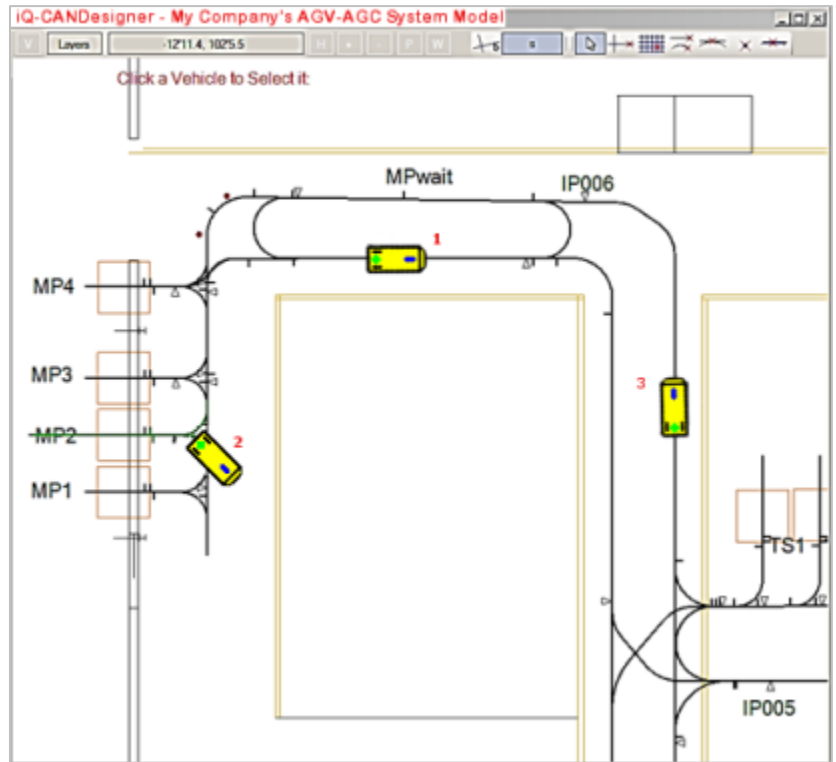

Automatic Guided Carts	<ul style="list-style-type: none"> • Drive Under AGC • Powered Deck & Tow AGC 	<p>2,000 -10,000 lbs.</p> <p>Tunnel Under/Engage Simple Cart Or Powered Roller/Lift/Chain Decks</p>
Assembly Line AGCs	<ul style="list-style-type: none"> • Drive Under AGC • Tow AGC 	<p>2,000 -10,000 lbs.</p> <p>Synchronous, Continuous & Asynchronous movement</p>
Hospital AGVs	<ul style="list-style-type: none"> • Drive Under AGC • Pedestal Front AGC 	<p>2,000 lbs.</p> <p>Elevator Interface, meal, linen, trash, supply cart transport.</p>
Automatic Guided Vehicles	<ul style="list-style-type: none"> • Tow AGVs • Carrier AGVs 	<p>10,000 - 60,000 lbs.</p> <p>Manual Operator Riding Compartment, Ramp Capability, Indoor/Outdoor</p> <p>2,000 – 6,000 lbs.</p> <p>Lift/Lower, Conveyor Deck, Multiple Deck Control, Bidirectional</p>

iQ-CAN® - intelligent Quick Configurable Automation®

Revolutionary iQ-CAN® software control system with graphical system design tools provides simulated visualization of system design prior to purchase. Alter the system model by adding/moving path, stations, action locations, and changing operational rules. Demonstrate system model to management. System changes uploaded immediately to plant AGVs in real world operation.

Contact us for planning, budgeting and no charge modeling.
